1. Sign up the letter of intent, scan it and send an copy to projectoffice@openetcs.org and
https://github.com/openETCS/horizon2020/blob/master/openETCS%20%20%40Horizon2020_Letter%20of%20Intent_13.16.pdf
→ Letter of Intent will be available on open repository:
https://github.com/openETCS/horizon2020/blob/master/openETCS%20%20%40Horizon2020_Letter%20of%20Intent_13.16.pdf
!!I feel very sorry to request the signature of a letter of intent for confidential issues in a open project. But in this case and in respect to the other partners it is necessary.!!
We can not grant you an access to the closed repository
<https://github.com/openETCS/horizon2020-management>
As long we don't have this document. A scan with the signature by email to the projectoffice@openetcs.org and horizon2020@openetcs.org is fully sufficient.
2. Send a Email to the projectoffice@openetcs.org and horizon2020@openetcs.org to get access to the Git-Hub Repository:
<https://github.com/openETCS/horizon2020-management>
!!→ Please if you do not have already a GitHub account, create a free GitHub account with your full name and send us your GitHub user name!!!. (i.e. Baseliyos Jacob)
3. Please register on the Horizon 2020 page (I need your PIC Number if not already available):

Table of Contents

1. Excellence

Your proposal must address a work programme topic for this call for proposals.

 *This section of your proposal will be assessed only to the extent that it is relevant to that topic.*

1.1 Objectives

- Describe the specific objectives for the project¹, which should be clear, measurable, realistic and achievable within the duration of the project. Objectives should be consistent with the expected exploitation and impact of the project (see section 2).

1.2 Relation to the work programme

¹ The term 'project' used in this template equates to an 'action' in certain other Horizon 2020 documentation.

- Indicate the work programme topic to which your proposal relates, and explain how your proposal addresses the specific challenge and scope of that topic, as set out in the work programme.

1.3 Concept and approach

- Describe and explain the overall concept underpinning the project. Describe the main ideas, models or assumptions involved. Identify any trans-disciplinary considerations;
- Describe the positioning of the project e.g. where it is situated in the spectrum from ‘idea to application’, or from ‘lab to market’. Refer to Technology Readiness Levels where relevant. (See [General Annex G of the work programme](#));
- Describe any national or international research and innovation activities which will be linked with the project, especially where the outputs from these will feed into the project;
- Describe and explain the overall approach and methodology, distinguishing, as appropriate, activities indicated in the relevant section of the work programme, e.g. for research, demonstration, piloting, first market replication, etc;
- Where relevant, describe how sex and/or gender analysis is taken into account in the project’s content.

 *Sex and gender refer to biological characteristics and social/cultural factors respectively. For guidance on methods of sex / gender analysis and the issues to be taken into account, please refer to http://ec.europa.eu/research/science-society/gendered-innovations/index_en.cfm*

1.4 Ambition

- Describe the advance your proposal would provide beyond the state-of-the-art, and the extent the proposed work is ambitious. Your answer could refer to the ground-breaking nature of the objectives, concepts involved, issues and problems to be addressed, and approaches and methods to be used.
- Describe the innovation potential which the proposal represents. Where relevant, refer to products and services already available on the market. Please refer to the results of any patent search carried out.

2. Impact

2.1 Expected impacts

 *Please be specific, and provide only information that applies to the proposal and its objectives. Wherever possible, use quantified indicators and targets.*

- Describe how your project will contribute to:
 - the expected impacts set out in the work programme, under the relevant topic;
